4. First-aid measures

| | |
|---|--|
| Inhalation | Move to fresh air. If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. Call a physician if symptoms develop or persist. |
| Skin contact | Frostbite: Do not remove clothes, but flush with copious amounts of lukewarm water. Get medical attention if any discomfort continues. |
| Eye contact | Frostbite: Immediately and briefly flush with lukewarm, gently flowing water. Cover both eyes with a sterile dressing. Immediately obtain medical attention. GAS: Not applicable. No effects expected. |
| Ingestion | Not relevant, due to the form of the product. |
| Most important symptoms/effects, acute and delayed | Exposure to rapidly expanding gas or vaporizing liquid may cause frostbite ("cold burn"). Inhalation: May cause drowsiness or dizziness. Unconsciousness. Very high exposure can cause suffocation from lack of oxygen. |
| Indication of immediate medical attention and special treatment needed | Treat symptomatically. |
| General information | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. If you feel unwell, seek medical advice (show the label where possible). Show this safety data sheet to the doctor in attendance. |

5. Fire-fighting measures

| | |
|--|--|
| Suitable extinguishing media | Cool containers exposed to heat with water spray and remove container, if no risk is involved. |
| Unsuitable extinguishing media | None known. |
| Specific hazards arising from the chemical | Contents under pressure. Pressurized container may explode when exposed to heat or flame. |
| Special protective equipment and precautions for firefighters | Self-contained breathing apparatus and full protective clothing must be worn in case of fire. |
| Fire fighting equipment/instructions | Move containers from fire area if you can do so without risk. |
| Specific methods | Use standard firefighting procedures and consider the hazards of other involved materials. |
| General fire hazards | Heat may cause the containers to explode. Ruptured cylinders may rocket. |

6. Accidental release measures

| | |
|--|---|
| Personal precautions, protective equipment and emergency procedures | Keep unnecessary personnel away. Ensure adequate ventilation. Avoid breathing gas. In the event of a leak evacuate all personnel until ventilation can restore oxygen concentrations to safe levels. For personal protection, see Section 8 of the SDS. |
| Methods and materials for containment and cleaning up | Stop the flow of material, if this is without risk. For waste disposal, see Section 13 of the SDS. |
| Environmental precautions | Avoid discharge into drains, water courses or onto the ground. |

7. Handling and storage

| | |
|---|---|
| Precautions for safe handling | Provide adequate ventilation. Handle and open container with care. Observe good industrial hygiene practices. |
| Conditions for safe storage, including any incompatibilities | Contents under pressure. Keep at temperature not exceeding 52 °C. Store in a cool, dry place out of direct sunlight. Store in a well-ventilated place. Store away from incompatible materials (See Section 10). |

8. Exposure controls/personal protection

| | |
|--|---|
| Occupational exposure limits | No exposure limits noted for ingredient(s). |
| Biological limit values | No biological exposure limits noted for the ingredient(s). |
| Appropriate engineering controls | General ventilation normally adequate. |
| Individual protection measures, such as personal protective equipment | |
| Eye/face protection | If contact is likely, safety glasses with side shields are recommended. |
| Skin protection | |
| Hand protection | For prolonged or repeated skin contact use suitable protective gloves. |
| Other | Contact with liquefied gas might cause frostbites, in some cases with tissue damage. |
| Respiratory protection | In case of inadequate ventilation or risk of inhalation of gas, use suitable respiratory equipment. |

| | |
|---------------------------------------|---|
| Thermal hazards | Wear appropriate thermal protective clothing, when necessary. |
| General hygiene considerations | Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. |
