Worthington Industries delivers end-to-end solutions for storing and transporting cryogenic liquids. Our high-quality custom trailers are manufactured at our production facility in Theodore, Alabama.

Worthington’s transport trailers are customized to meet your unique needs and designed to operate for years to come, which means dependable fleets with lower transportation, maintenance and refurbishment costs. We’re always seeking new ways to increase your productivity, performance and value.

Our trailers feature lightweight aluminum or stainless steel liners for the safe transportation of the specialty liquefied gases such as:

- Liquid Nitrogen (LIN)
- Liquid Argon (LAR)
- Liquid Oxygen (LOX)
- Liquid Hydrogen (LH₂)
- Liquid Natural Gas (LNG)

**OUR ENGINEERS WILL WORK WITH YOU TO DETERMINE THE BEST CONFIGURATION FOR YOUR OPERATION.**
