

Right-size your production with MicroBulk Tanks

Flexible installation provides convenience and safety when a bulk tank is too large

Achieve maximized operating efficiencies

A MicroBulk Tank from Worthington provides a constant on-stream supply, avoiding unplanned down time due to supply run-out or changing of smaller cylinders.

- Tanks can be outfitted with industry standard telemetry units
- High Capacity Vaporizer Options
 - Tank mounted units up to 3500 scfh withdrawal rate
 - Consult service specialist for higher flow rate options

Increase your flexibility

MicroBulk Tanks free up valuable floor space and can be easily changed to larger or smaller sizes based on future product demand.

- Expedited delivery for standard configuration tanks from our Theodore, AL facility
- Fill Flexibility
 - Top/Bottom fill option
 - Bulk Tank fill
 - Float assembly for automatic shutoff (if delivery truck is so equipped)
- MicroBulk Tanks allow both indoor and outdoor installation
- 100% galvanized carbon steel pallet offers durability. Stainless steel pallets are also available.
- Built to last
- 5-year vacuum warranty

Use one single, trusted provider

We offer a comprehensive, high-quality suite of industrial gas products, containers and trailers of all sizes:

- Industrial Liquid Cylinders
- Beverage Carbonation Cylinders
- MicroBulk Tanks
- Cryogenic Trailers
- Cryogenic Dewars, Refrigerators and Freezers
- Refrigerant, High-pressure, Acetylene and Forklift Cylinders
- CNG Tanks

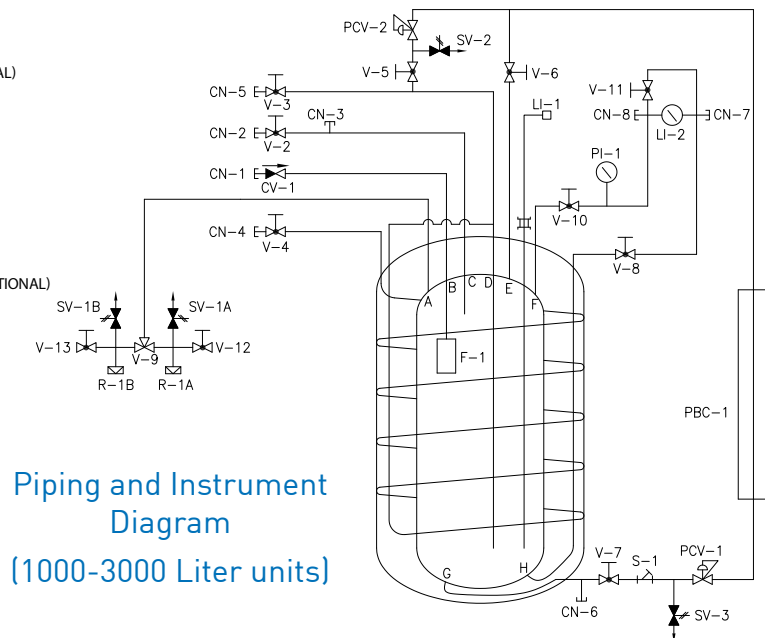

Our products and service team work together for a seamless, low-maintenance, high-performance solution for you.
