

# Keep Equipment at Peak Productivity

WORTHINGTON'S HIGH-PERFORMANCE EQUIPMENT IS BUILT FOR BETTER—BOTH IN THE FIELD AND FOR YOUR BOTTOM LINE. NOW OUR SERVICE MAINTENANCE AGREEMENTS MAKE IT EASIER TO KEEP THESE SYSTEMS AT PEAK PRODUCTIVITY WITH OEM-LEVEL EXPERTISE.

Getting the most productivity and value from your equipment takes those who know these systems best. That's why so many operators are signing up for a Worthington Industries Service Maintenance Agreement (SMA). These programs make it easier for your crew to prevent problems, continue strong performance, protect people and the wellsite—as well as save on overall upkeep.

Service Maintenance Agreements are available on:

- Heater Treaters
- Line Heaters
- Gas Processing Units
- Separators of all kinds
- Dehydration Units

## BETTER SERVICE FROM THOSE WHO KNOW

Worthington Industries Service Maintenance Agreements offer a comprehensive checklist of services designed to keep each particular type of equipment at maximum effectiveness and efficiency. These field maintenance activities include things like:

- On-demand emergency callout repairs, parts or general service
- Fine tuning the burner performance of applicable equipment
- Total disassembly of field trains for inspection, maintenance and repair
- Performance of field safety tests including all documentation
- Misc. laboratory analysis to determine equipment health
- Specialized environmental inspections and testing

Most customers carry a preventative SMA for annual or bi-annual service, plus optional services as needed. For a full list of SMA service tasks, parts, consumables and documentation included in your specific equipment's SMA please contact your Worthington Industries representative.
